ACKNOWLEDGEMENT AND ACCEPTANCE OF TREATMENT TEAM

EAP is experiential, offering clients a unique opportunity to be both mentally and physically involved in their own healing process. Participants learn about themselves and others by participating in activities with the horses, and then discussing feelings, behaviors, and patterns.

Stable Life Solutions' EAP sessions are treatment team-guided, and are a collaborative effort between a licensed therapist, an Equine Specialist and one or more horses to foster emotional growth in our clients. You will be provided instructions and feedback from all members of treatment team. The Equine Specialist is not a therapist, and as such does not engage in conducting therapy. The Equine Specialist does enrich the counseling process by pointing out interesting interactions and insights through their understanding of horse psychology and human-horse interaction.

By signing you are acknowledging that you understand and accept that the Equine Specialist will be present and involved during yours or your child's sessions and is not a certified, licensed therapist but is a vital and functional part of your treatment team.
